GE VERNOVA

SUSTAINABILITY

Catalyze access to more secure, sustainable, reliable, and affordable electricity, and help drive global economic development

LEADING GOALS

GOAL 1
Be a leading provider of new power generating capacity and grid capacity for the world

GOAL 2
Address electrification in regions underserved by reliable, affordable, and sustainable electricity

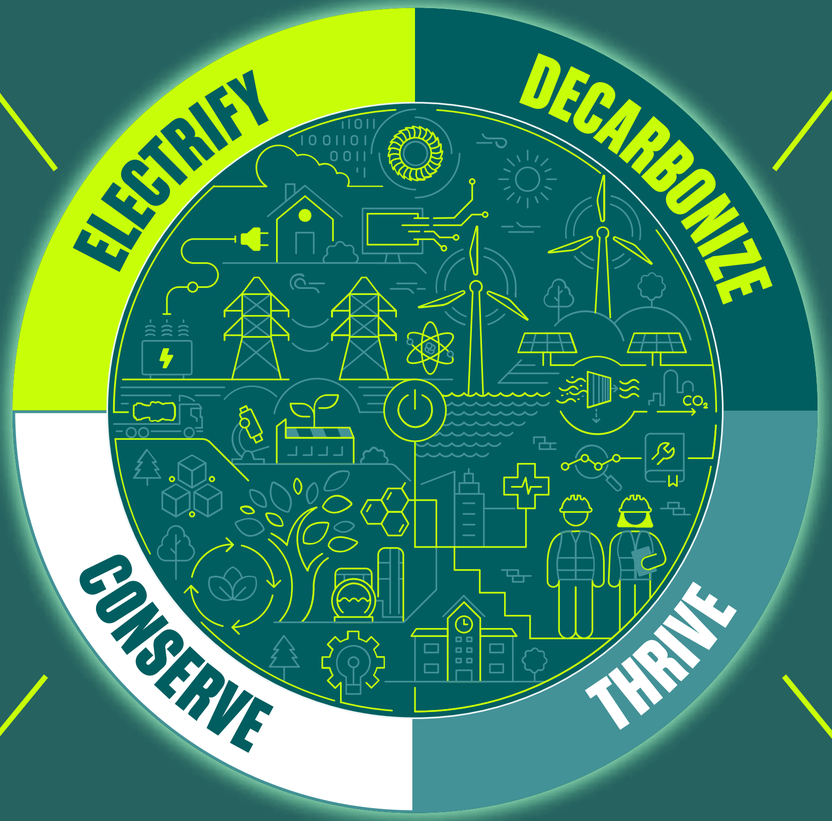

GOAL 3
Support workforce development, with a focus on underserved populations globally

Innovate more while using less, safeguarding natural resources

LEADING GOALS

GOAL 1
Carbon neutrality for Scope 1 and 2 GHG emissions by 2030

GOAL 2
90% of our top products covered by our 4R circularity framework by 2030

Invent, deploy, and service the technology to help decarbonize and electrify the world

LEADING GOALS

GOAL 1
Improve the trajectory of carbon intensity for near-term impact

GOAL 2
Innovate toward our 2050 Scope 3 net zero ambition for use of sold products

Advance safe, responsible, and fair working conditions in our operations and across our value chain

LEADING GOALS

GOAL 1
Fatality-free operations

GOAL 2
Demonstrate progress on inclusive culture and equal employment opportunity for all employees

GOAL 3
Embed and implement ethical decision-making principles into business decisions

GOAL 4
Partner with suppliers to advance human rights in our value chain

SUSTAINABILITY

GE VERNOVA

THE WORLD'S ENERGY MANUFACTURER

~100

Manufacturing facilities across the world

~$20 BN

Total spend in raw materials and components used in production of our products

109

Direct material supplier countries

THE SUSTAINABLE ENERGY SYSTEMS OF THE FUTURE ARE BEING BUILT TODAY ON THE FACTORY FLOOR

MANUFACTURING FOR MORE RELIABLE, AFFORDABLE AND SUSTAINABLE GRIDS

TO OUR FUTURE ENERGY LEADERS

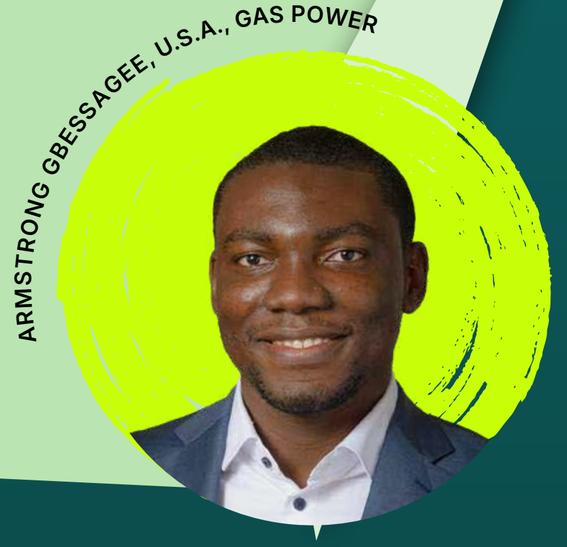

I ask you to challenge us to be better every day. To propel us to flip the script together and see our present as a unique opportunity to revisit past assumptions and find ways to pragmatically move the needle on the technology that will electrify and decarbonize the world, one crucial day at a time.

This is just the beginning. I urge you all, to use this moment to keep pushing forward, to be that much better as members of our global community. The world needs GE Vernova, and we need your relentless optimism and action so that, together, we can keep powering progress, meeting global electricity needs effectively.

I hope you will join us – as an employee, collaborator, or community stakeholder. It would be our privilege.

ELECTRIFY

~25%
of the world's electricity generated using our technology

31 GW
of new generating capacity brought online in 2024

62%
of new generating capacity in developing and emerging economies

71 GW
of grid enabling capacity energized in 2024

34%
of grid enabling capacity energized in developing and emerging economies

DECARBONIZE

NEAR TERM

27 MILLION METRIC TONS
of CO_2 avoided[1] emissions in first full year of operation for new generating capacity brought online

New generating capacity of our equipment brought online is

~20%
below the global average carbon intensity of the existing grid

LONG TERM

4 BREAKTHROUGH TECHNOLOGIES
to invest in for long-term decarbonization

- SMALL MODULAR REACTORS
- HYDROGEN
- CARBON CAPTURE
- DIRECT AIR CAPTURE

SELECT ONE OF OUR FOUR PILLARS TO FIND OUT MORE

ELECTRIFY

SUMMARY

Our commitment to catalyze access to more secure, sustainable, reliable, and affordable electricity, and help drive global economic development.

LEADING GOALS

GOAL 1

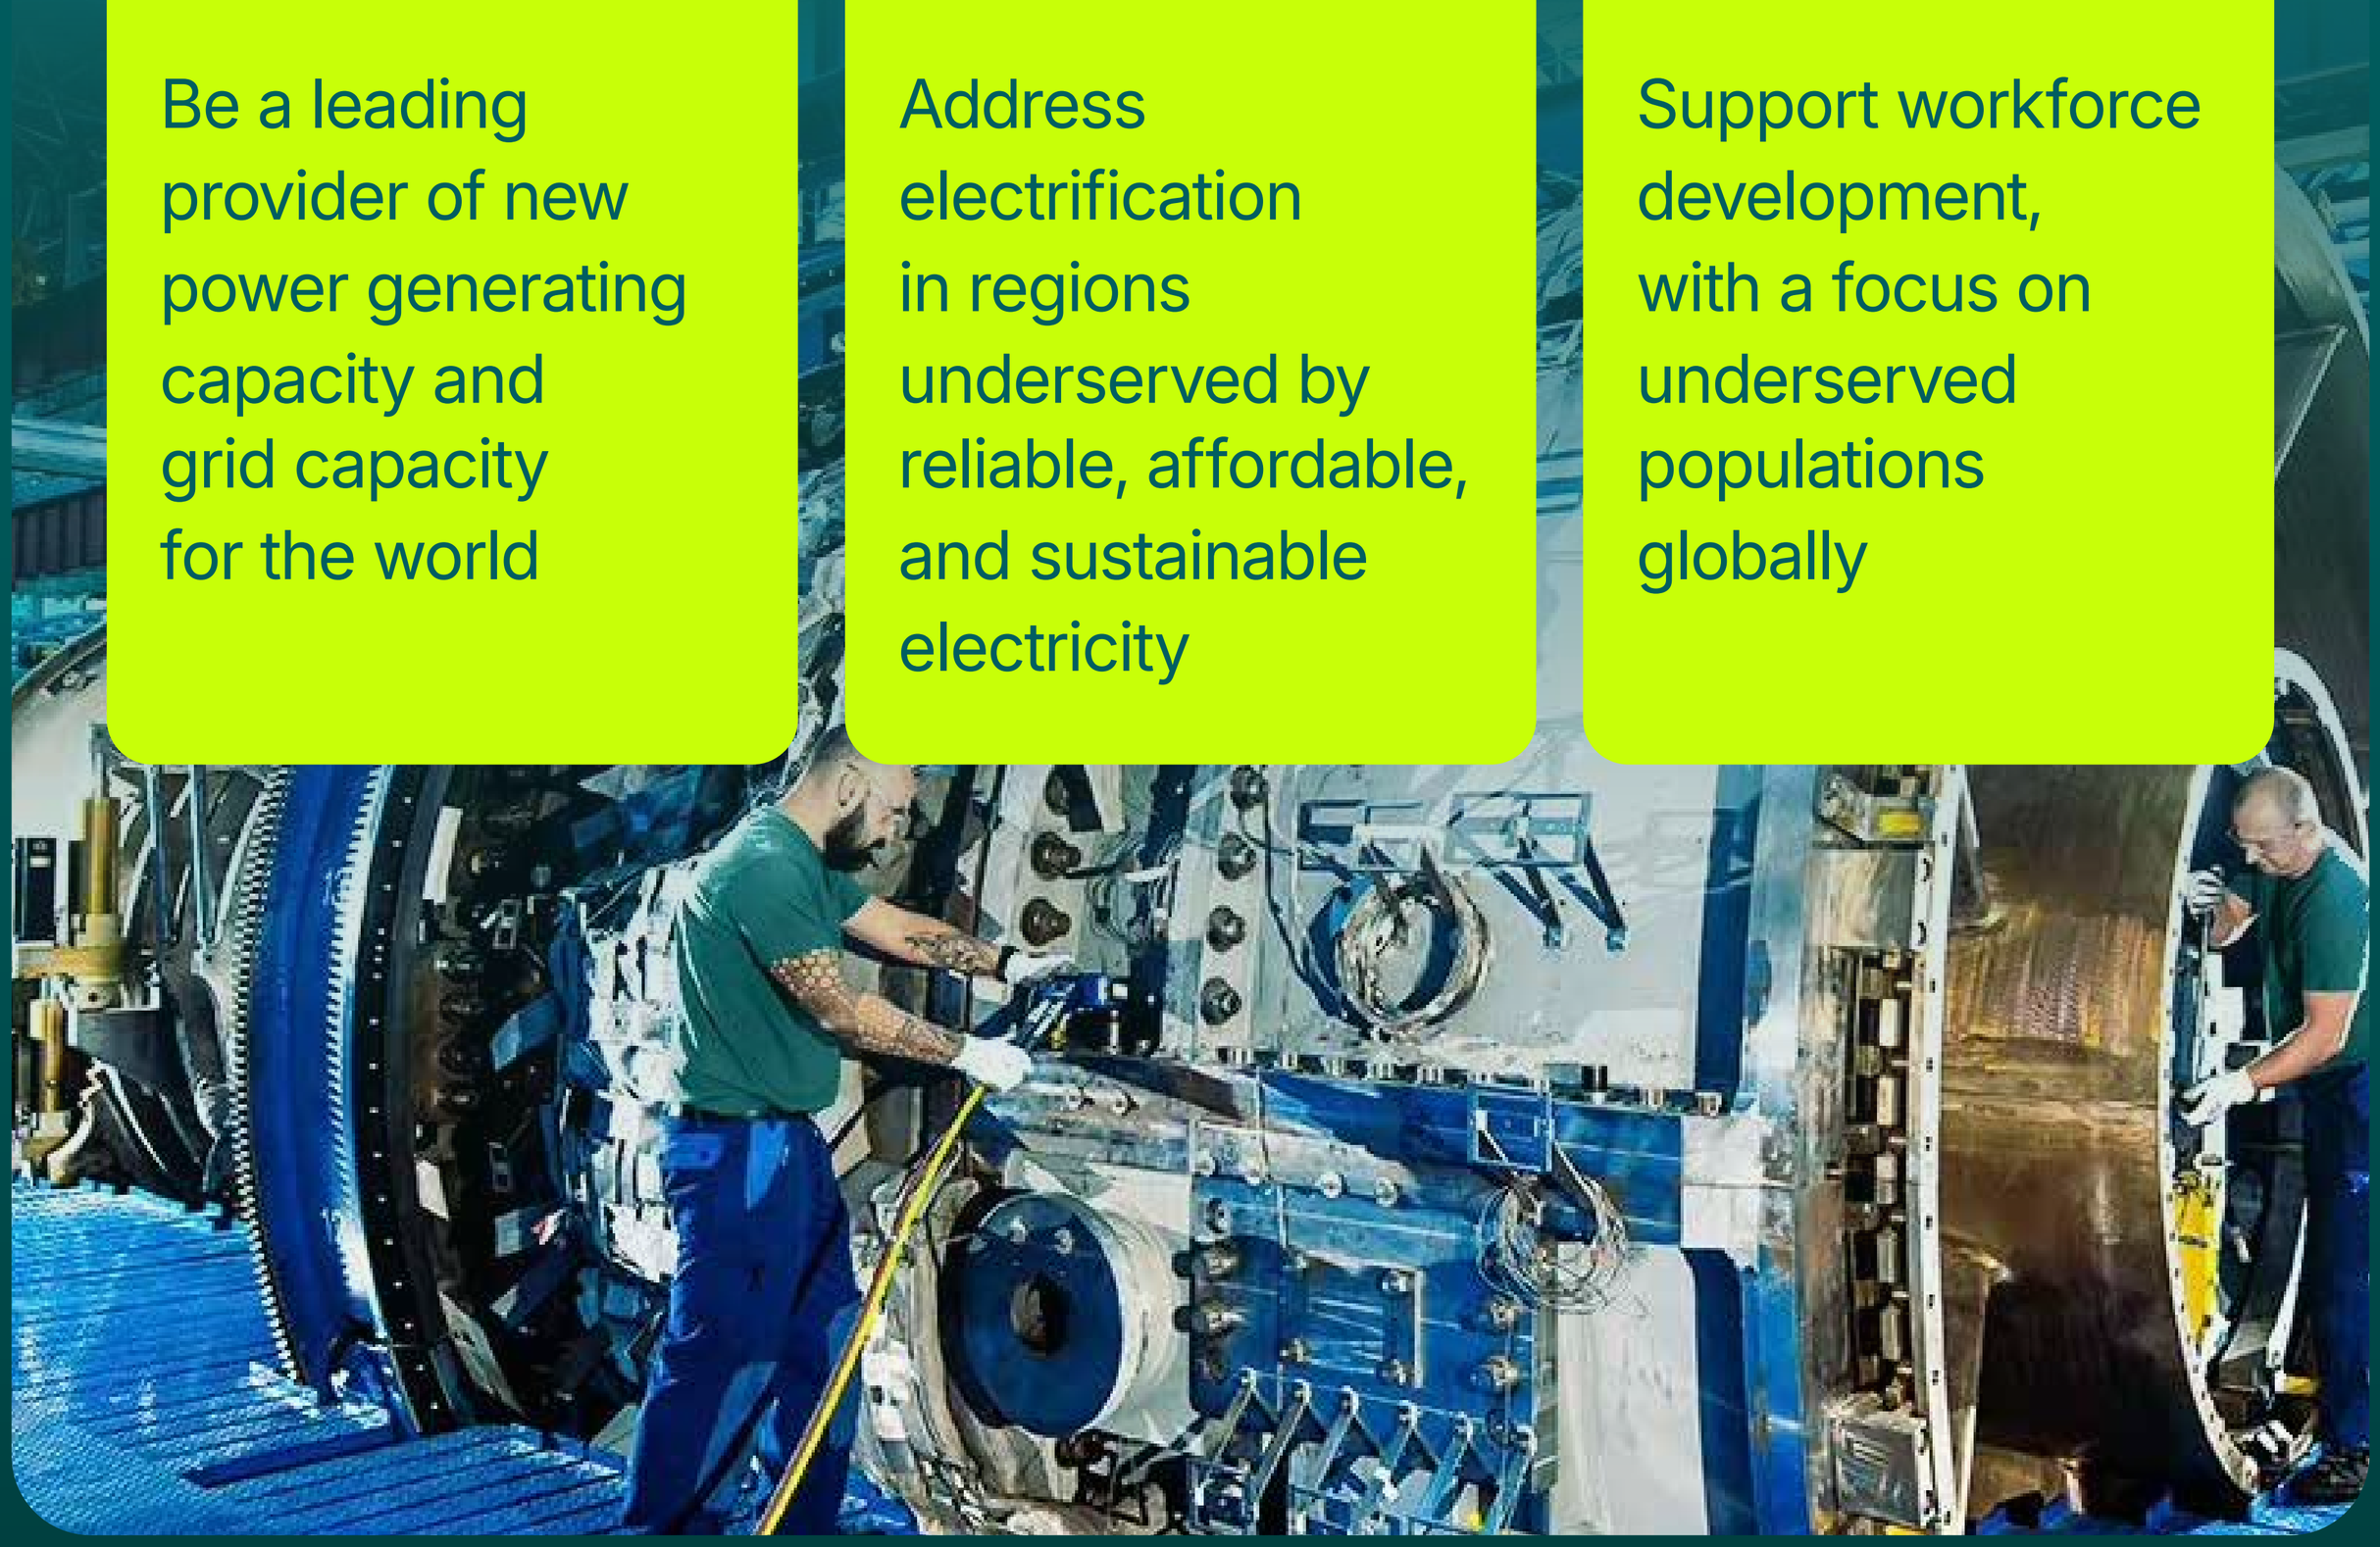

Be a leading provider of new power generating capacity and grid capacity for the world

GOAL 2

Address electrification in regions underserved by reliable, affordable, and sustainable electricity

GOAL 3

Support workforce development, with a focus on underserved populations globally

ELECTRIFY

GOAL 1

Electricity is vital to modern civilization, and critical to prosperity, health, and safety. As a company whose technology base helps generate approximately 25% of the world's electricity, we are passionate about innovating and investing across our technologies to help the world meet growing demand for electricity while reducing the carbon intensity of power grids and electricity supply.

The Electrify pillar in our Sustainability Framework encompasses our commitment to preserve and increase global access to electricity.

GOAL 1

Be a leading provider of new power generating capacity and grid capacity for the world

2024 PROGRESS — BY 2030

31GW — 150GW

In 2024, 31 GW of GE Vernova power generation equipment came online – this comprises ~20% of our 2030 target.

Electrification is one of the most important enablers for global decarbonization at scale.

NEW GENERATING CAPACITY ONLINE[1] IN 2024

31 GW

The approximate equivalent of the installed generating capacity of the U.S. state of Virginia

GRID ENABLING CAPACITY ENERGIZED[2] IN 2024

71 GW

Enabling new transmission capacity equivalent to the installed generating capacity of South Africa

ELECTRIFY

GOALS 2-3

GOAL 2

Address electrification in regions underserved by reliable, affordable and sustainable electricity

2024 PROGRESS

In 2024, 42% of our new power generating capacity and grid enabling capacity, in terms of gigawatts, was energized in developing or emerging economies.

The Mendoza Model

The Four Pillars of Action highlight where coordination is most urgently needed

The Mendoza Principles reframe how we approach energy access

Principles shape how we think and work, while Action Pillars guide where we focus joint effort

GOAL 3

Support workforce development, with a focus on underserved populations globally

2024 PROGRESS

BY 2030

~5,700

30,000 STUDENTS AND LEARNERS

In 2024, we reached approximately 5,700 students through programs focused on workforce development and training.

Supporting the future workforce

FUTURE OF ENERGY TO BUILD SKILLED U.S. WORKFORCE

$500K

Scholarship funding over a two-year period for students pursuing skilled trades

Collaboration with SkillPointe Foundation at these locations:

Charleroi, Pennsylvania
Greenville, South Carolina
Houston, Texas
Schenectady, New York
Pensacola, Florida

NEXT ENGINEERS PROGRAM

In 2024, 120 learners graduated the Engineering Academy. ~90% of these students pursued engineering apprenticeships or post-secondary studies in engineering.

$1.1M

in scholarships awarded to date

GE VERNOVA STAR SCHOLARSHIP

$200K

in scholarships awarded in 2024

RENEW SKILLS IN VIETNAM

$750K

Three-year workforce upskilling program across Vietnam for renewable energy

GOAL TO TRAIN 30,000 STUDENTS BY 2030

DECARBONIZE

SUMMARY

Our commitment to invent, deploy, and service the technology to help decarbonize and electrify the world.

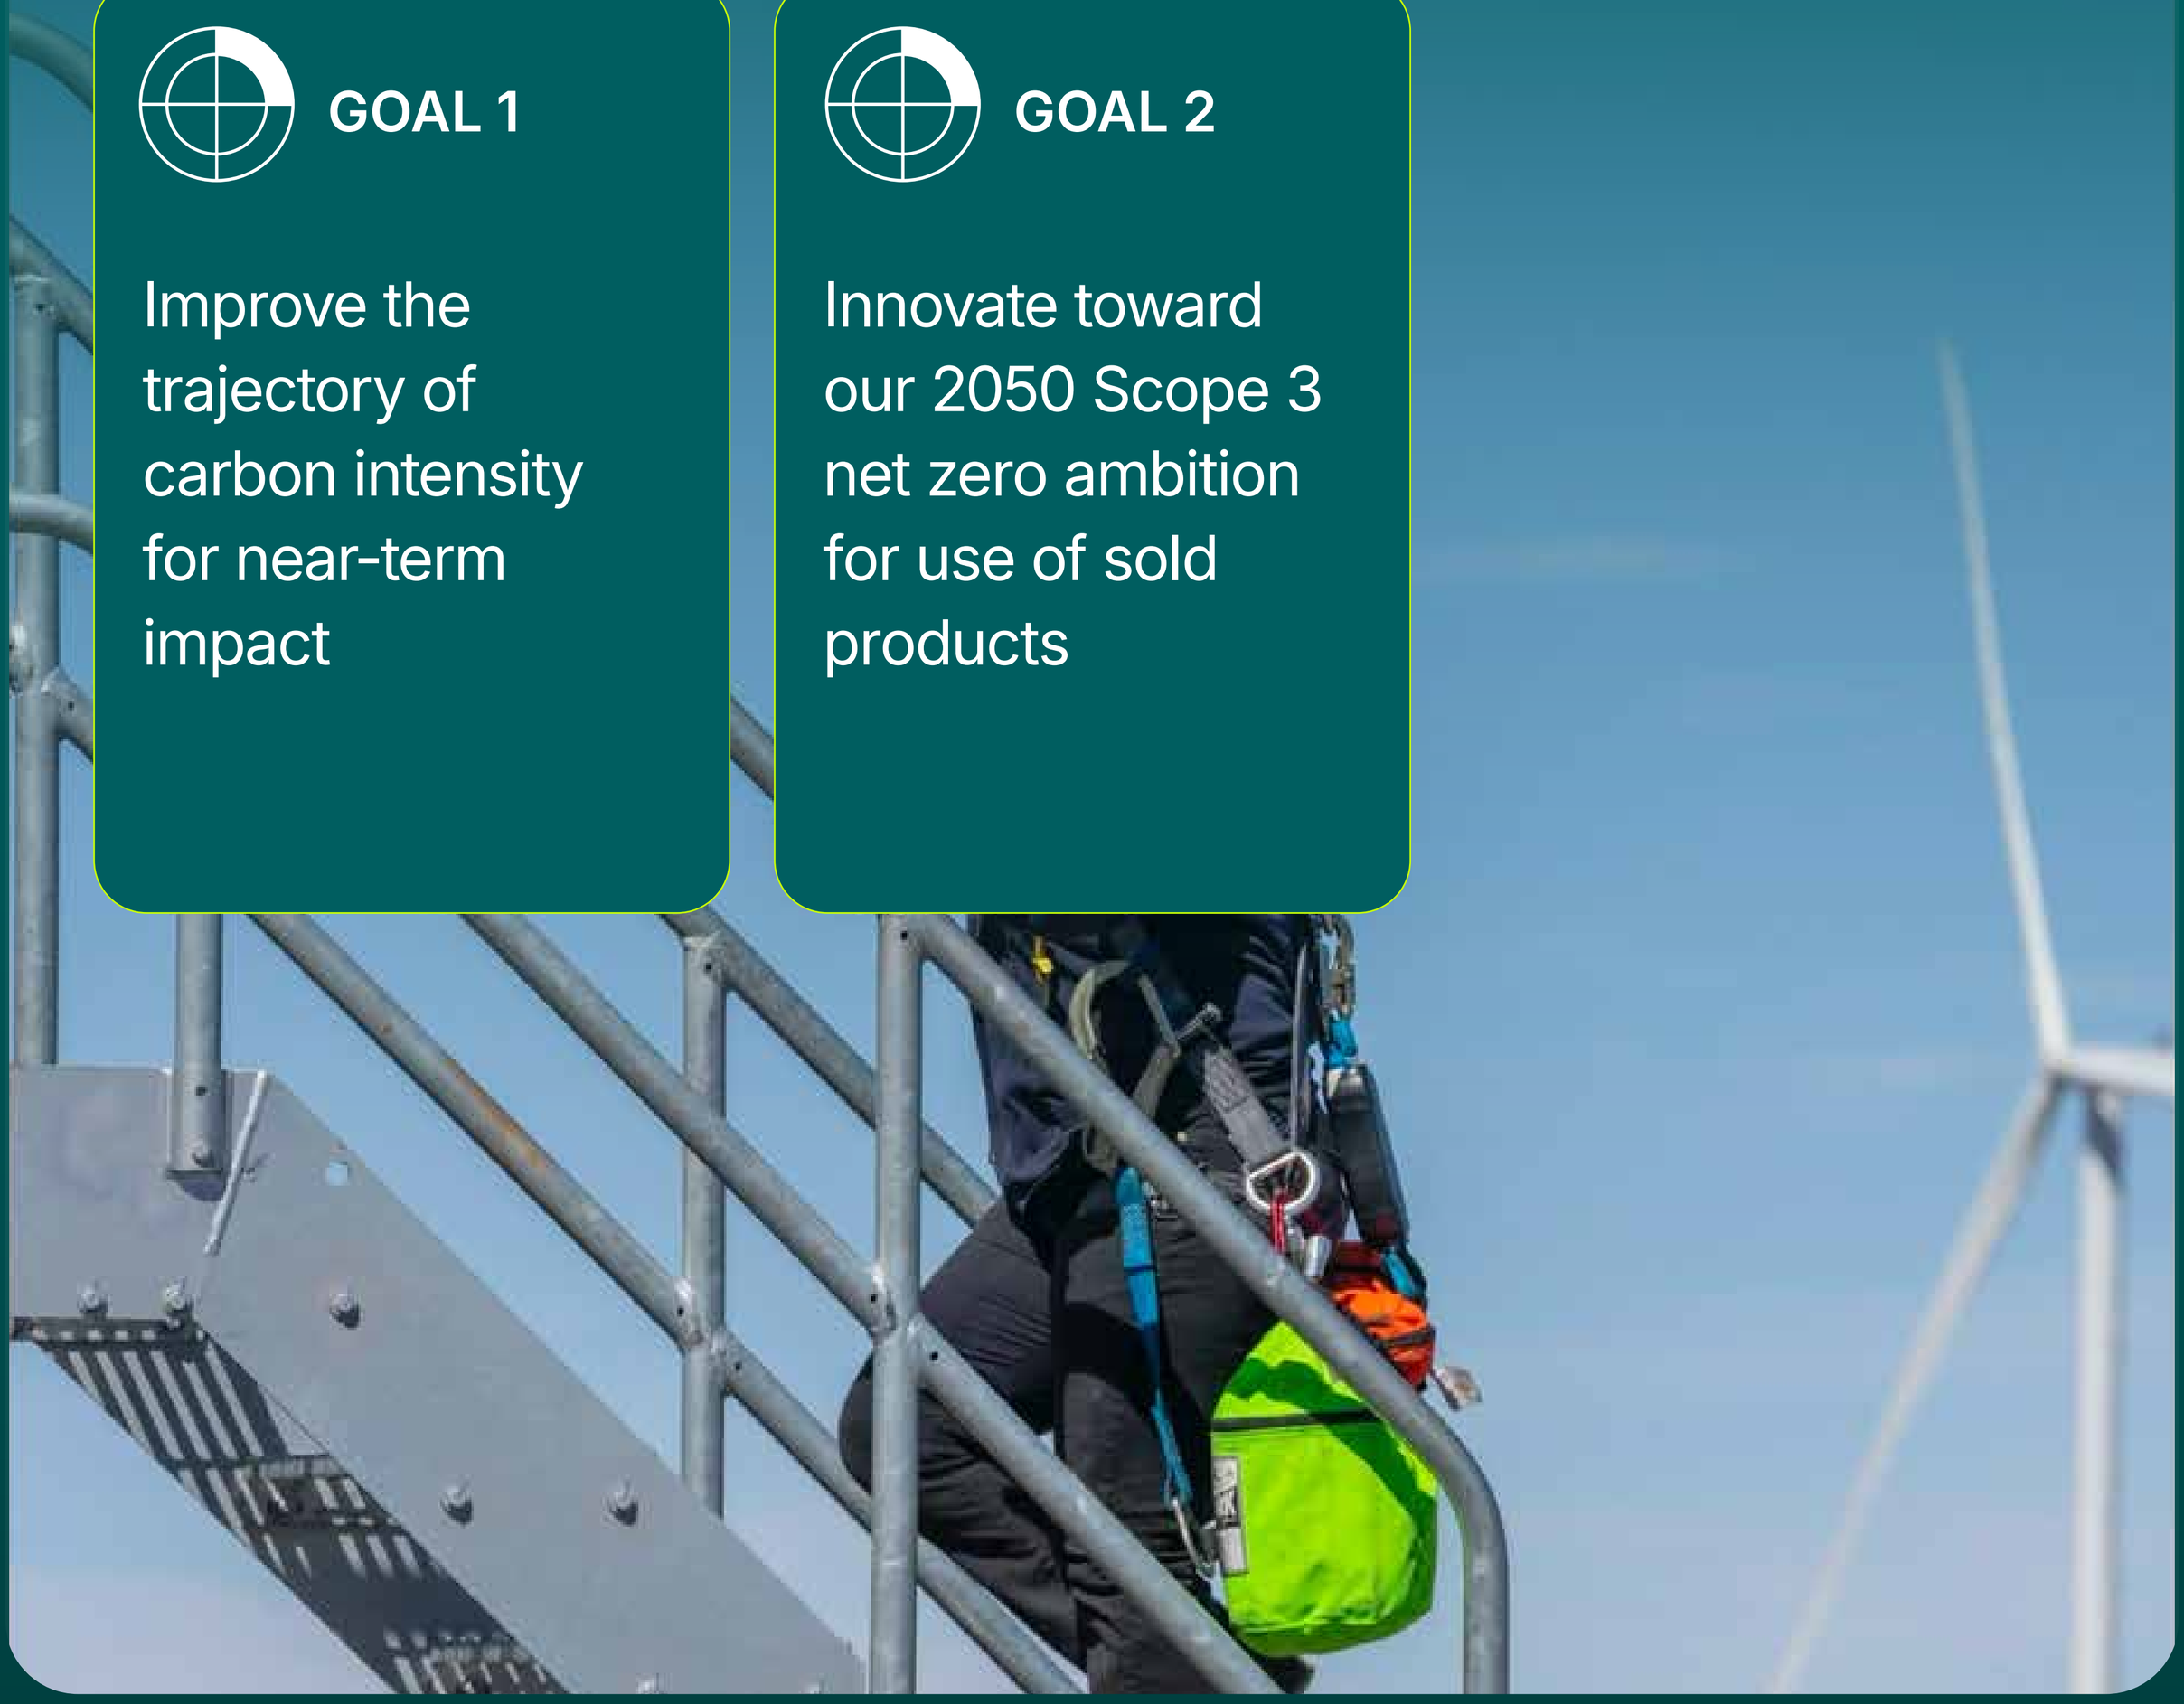

LEADING GOALS

GOAL 1

Improve the trajectory of carbon intensity for near-term impact

GOAL 2

Innovate toward our 2050 Scope 3 net zero ambition for use of sold products

DECARBONIZE

GOAL 1

We are uniquely positioned to help lead the energy industry and meet global demand for electricity to support economic growth, while improving reliable access to underserved populations.

Our innovative products and services help our customers reduce carbon emissions from power generation in the near term, while helping them achieve their emission reduction targets. The Decarbonize pillar in our Sustainability Framework encompasses our commitment to invent, deploy, and service technology to help electrify and decarbonize the world.

GOAL 1

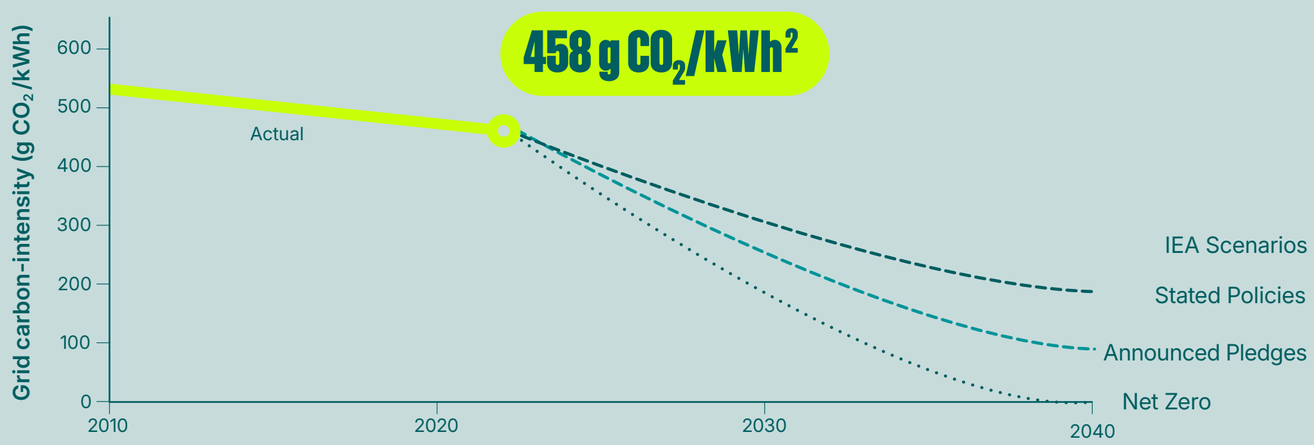

Improve the trajectory of carbon intensity for near-term impact

2024 PROGRESS

~20% BELOW

New generating capacity of our equipment brought online is ~20% below the global average carbon intensity of the existing grid.

2023 GLOBAL ELECTRICITY SECTOR CARBON INTENSITY[1]

IMPROVING THE TRAJECTORY OF CARBON INTENSITY

New power generating capacity brought online in 2024

CARBON INTENSITY[3]

368 grams of CO_2 per kWh

~20% below the 2023 global average carbon intensity of the existing grid

CARBON CAPABILITY[4]

146 grams of CO_2 per kWh

Carbon capacity demonstrates the estimated carbon intensity that a newly installed technology base could realize once supporting policy and infrastructure frameworks are in place

CO_2 AVOIDED[5]

27 million metric tons per year

equivalent to

6.3 MILLION[6]

gasoline-powered passenger vehicles driven for one year

DECARBONIZE

GOAL 2

GOAL 2

Innovate towards our 2050 Scope 3 net zero ambition for use of sold products

2024 PROGRESS

61% REDUCTION

Reduction in estimated lifetime gross CO_2 emissions from use of sold products since 2019.

LONG TERM
4 BREAKTHROUGH TECHNOLOGIES

to invest in for long-term decarbonization

- SMALL MODULAR REACTORS
- HYDROGEN
- CARBON CAPTURE
- DIRECT AIR CAPTURE

ACCELERATORS

GE Vernova's Accelerators work with our businesses to enable the next generation of breakthrough technologies and support our customers with solutions to enable electrification and decarbonization.

ADVANCED RESEARCH

FINANCIAL SERVICES

CONSULTING SERVICES

CONSERVE

SUMMARY

Our commitment to innovate more while using less, safeguarding natural resources.

LEADING GOALS

GOAL 1

Carbon neutrality for Scope 1 and 2 GHG emissions by 2030

GOAL 2

90% of our top products covered by our 4R circularity framework by 2030

CONSERVE

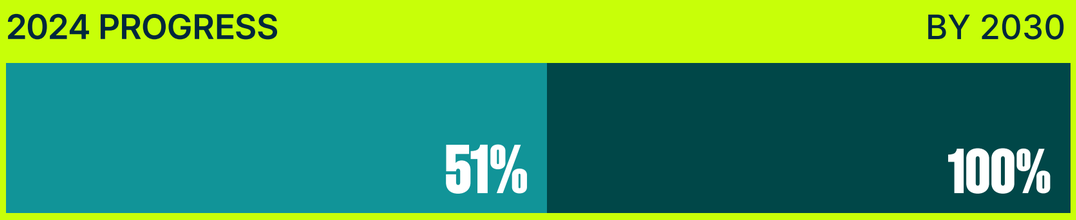

GOAL 1

Our Conserve pillar highlights our commitment to improving the environmental impacts of our operations and our products as we bring the energy to change the world. We are aiming to reduce the Scope 1 and 2 GHG emissions from our own operations.

We are incorporating environmental considerations into how our products are designed, engineered, deployed, serviced, reused, and recycled at the end of their useful life through our Product Stewardship and Circularity program.

GOAL 1

Carbon neutrality for Scope 1 and 2 GHG emissions by 2030

We have reduced our operational emissions by 51% since 2019.

OUR APPROACH

1 APPLYING LEAN TO REDUCE ENERGY USAGE AND EFFICIENCY IN OPERATIONS

2 NEAR-ZERO CARBON ENERGY SUPPLY

3 BALANCE REMAINING EMISSIONS

CONSERVE

GOAL 2

GOAL 2

90% of our top products covered by our 4R circularity framework by 2030

In 2024, our overall product coverage was 38%, indicating that these products meet the minimum requirements of our 4R circularity framework.

RETHINK

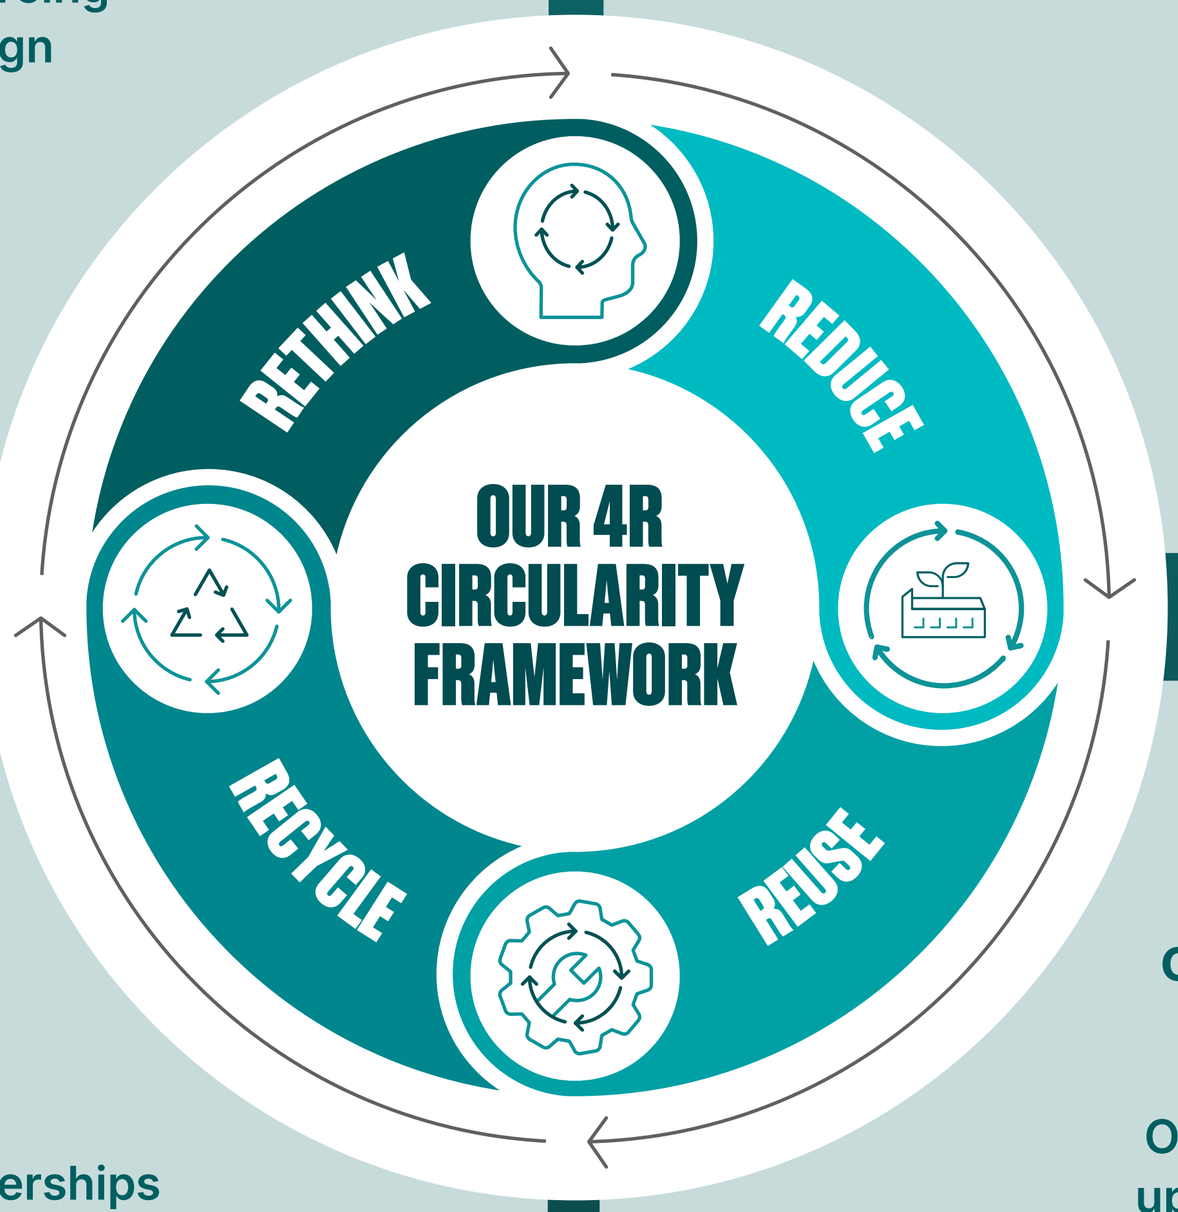

Product engineering with sustainability in mind

Material and sourcing decisions in design

REDUCE

Lean operations

Energy and waste reductions in manufacturing

RECYCLE

End-of-life (EoL) solutions and services

Recycling data, solutions, end-of-life partnerships

REUSE

Life extension and optimization services

Optimization and upgrade services for installed base

THRIVE

SUMMARY

Our commitment to advance safe, responsible, and fair working conditions in our operations and across our value chain.

LEADING GOALS

GOAL 1

Fatality-free operations

GOAL 2

Demonstrate progress on inclusive culture and equal employment opportunity for all employees

GOAL 3

Embed and implement ethical decision-making principles into business decisions

GOAL 4

Partner with suppliers to advance human rights in our value chain

THRIVE

GOALS 1-2

People are fundamental to our success. The ideas, energy, and commitment of approximately 75,000 people who work for GE Vernova are the driving forces behind the change we're creating.

It is essential we create a thriving community for our people by working to ensure the safety of our teams throughout the world, embracing inclusion, leading with integrity, and respecting human rights.

GOAL 1

Fatality-free operations

2024 PROGRESS

3 FATALITIES

Our focus on preventing fatalities and severe safety events is our top safety priority and is the primary consideration in all our efforts. Regrettably three people doing work on our behalf lost their lives in 2024.

GOAL 2

Demonstrate progress on inclusive culture and equal employment opportunity for all employees

2024 PROGRESS

31.1%

Over 31% of U.S. employees are from underrepresented racial or ethnic groups.

WORKFORCE REPRESENTATION DATA

33.3%

of Board of Directors are women

31.1%

U.S. employees are from underrepresented racial or ethnic groups

7.4%

of employees in the U.S. have a disability

THRIVE

GOALS 3-4

GOAL 3

Embed and implement ethical decision-making principles into business decisions

2024 PROGRESS

98%

salaried employees completed ethics and compliance training.

GE VERNOVA FOUNDATION

$22.8 MN
total GE Vernova giving

$210,000
in donated funds from GE Vernova global employees and the Matching Gifts program

NEARLY 1,300
global charities supported

23,000+
volunteer hours donated around the world

GOAL 4

Partner with suppliers to advance human rights in our value chain

2024 PROGRESS

576

new supplier audits conducted, with 559 suppliers approved and 17 suppliers rejected.

SALIENT RISKS

How we address our salient risks:

GE Vernova conducts company-wide human rights saliency assessments aligned to the United Nations Guiding Principles on Business and Human Rights, to identify our priority, salient human rights risk areas, and to track and evaluate our management of our salient risks.
